

HAS THE PLEASURE TO INVITE YOU TO

A NATIONAL SEMINAR

ZONING OF THE WATER SUPPLY NETWORK AND PRESSURE CONTROL

27 SEPTEMBER 2017 / 11.00 AM

STAROSEL / WINE AND SPA COMPLEX

ACCENTS

- zoning of the water supply network - normative requirements;
- zoning as a tool for controlling pressure and reducing water losses;
- approach when determining the areas of the water supply network;
- engineering measures to implement zoning;
- advanced equipment used for zoning the network;
- software solutions for zone designation;
- sharing experience.

INVITED

The Ministers of Regional Development and Public Works and Environment and Water and representatives of the departments, the Chairman of the Energy and Water Regulatory Commission and representatives of the EWRC, the managers of Water supply and sewerage companies, chief engineers and experts from the operators, representatives of the business and others.

INFORMATION

Attached, we send a pre-program to the event.

Zoning of the water supply network is especially up to date in the context of the requirements of the Energy and Water Regulatory Commission to the water supply and sewerage operators for the quality of water supply and sewerage services. In the following years, knowledge and experience will accumulate in Bulgaria. Under the new regulation on the quality management of water supply and sewerage services and the guidelines of the Energy and Water Regulatory Commission for its implementation for the regulatory period 2017 - 2021, are laid down specific projected individual targets for water supply and sewerage operators, including a requirement for a zoning program for the water supply network.

SIGNING UP

Attached is sent a registration form with a request for individual filling and sending to bwa.sofia@gmail.com until 11 September, 2017.

PARTNERS

Attached is sent advertising packs with a request to declare a desire to be our partner at the National Seminar until 25.08.2017, by phone 0882371239 or by e-mail: bwa.sofia@gmail.com

IMPORTANT

The Bulgarian Water Association organized another Discussion forum "Losses of water - actual situation and perspectives", on 28 September 2017 at the Congress Center of the International fair in Plovdiv. More information is to be published on the Association's website.

BWA is a partner of the Plovdiv Fair this year, in particular by supporting the International Exhibition of Technologies and Water Management AQUATECH, which will be presented from 25th to 30th September. BWA participates in the Fair with a stand that will present the Association and its members.
